tive to four; the betting free. In fact, at this odds, we cannot say but the latter had the call. However, so sanguine were their respective friends that | WASHINGTON, (Am.) New York, Oct. 8, an insmense amount of money exchanged hands upon the result; as well it might, for certainly two finer looking colts never came upon a turf. This it was, with their late splendid performances, that ARABIA, (Br.) New York, Oct. 15, for caused their respective friends to back them so

After the usual preparations the colts were started, but as the race was won so ersily by General Woodfolk's, we will not give the particulars of the running. It was evident from the result that Mr. Averson's colt was not in good order. This fact we think his race last week clearly establishes. We felt sorry at this want of condition, for be belongs to liberal gentlemen who patronise the turf more for the improvement of stock than any thing else. Besides, it leaves the relative merits of the two oolts a debatable matter. And further, for the sake of sport we wished to see a well contested race: as it certainly would have been had the colts been in equal condition. Not only would it have been well contested, but an excellent race. However, Woodfolk certainly is fortunate to raise three such racers as Compromise, Martha Dan, and the colt above referred to; all by the same dam.

As respects the race yesterday we think it better than the time would indicate; for, notwithstanding the day was very fine, the track was heavy-rendereil so by late rains and repeated deep ploughings without having been exercised upon. We add the

RESDER'S MODEL BOILER -- On yesterday we witnessed a trial of the boiler, recently patented by Mr. REFORM. We regret that we have not a sufficient knowledge of the vocabulary of Engineering to give our readers a just conception of this truly valuable invention. So the as our judgment extends, and the indement of others who were present, we feel justified in saving that this invention is destined to supersede all others, and that all kinds of muchinery, propelled by steam, will have one of these attachments as a desideratum. The attachment is formed by the introduction of an extra safety valve to the ordinary boiler, which valve is set to a mathematical certainty to go off and effectually operate at any given pressure of steam—by means of a valve affixed to the bottom of the boiler, completely extinguishing the fire undermenth, and at the same time retains a sufficient amount of steam for the landing of the boat or its progression onward if necessary. Mr. R. intends visiting several of our neighboring cities for the purpose of introducing it to the attention of those who use steam as a motor. We hope he will meet with that consideration he and his invention so righly deserve.

Adelphi was last night filled to witness the performance of Mim Logan in the character of Bianca, in the tragedy of Fasio, and as the Widow Cheerly, in the admirable councily of the Soldier's Dangeter, brown Muslins and Drillings of all widths; blue, drab, which had been selected for her benefit. Miss

THE CAMPBELLS.

We were glad to see that, in spite of strong attractions elsewhere, the Campbells had a fine house at their first concert last night. In addition to the old favorites-Campbell, Clark, Pendergast, and others who still continue with the company, Mr. Norris has secured a budget of fun and a host of talent in Horn, Newcomb, and Max Zorer. The concert was excellent in all its parts, and the series will be quite as attractive as any which this immitable troope have given in this city.

No. 15 Cedar st. NEW BOOKS FOR THE YOUNG.

L EILLA, OR THE ISLAND; by Anne Frazer Tytler—
One Volume 1200. "This is a delightful story for children of the Robinson Crue-see class, which cannot be read, especially by little girls, without securing their absorbing attention. The book teaches healthful lessons of wisdom, irtue, and religion. Parents can confide in it as a safe ook for their children; and, from its fascinating style, it will become a great favorite with all Juvenile readers,"-ARRELL; a tale for young people; by Jane Winnard Hooper. Reautifully illustrated. "The publishers have done well to give this book so pleasant an adornment in illustrations and binding; but the richest adornment is found within, in noble character, lofty purpose, firm resolve for right
and duty. Its 370 pages were read by us at a sitting, unnoting the midnight hour, so charmed were we with the
sweet child; the grateful, confiding girl; the gifted, generous,
self-sacrificing, lofty, rictorious Arbell! If designed for the
young, advanced and old age will peruse it with equal interest."—Albany Speciator,
